3. ENTRIES ON THE DAY

Unfortunately, no entries for the half marathon will be accepted on the day.

4. TIMINGS

Officials and Marshals will leave their positions at 1pm and no responsibility will be taken for runners still on the course after this time.

5. RACE OFFICE

Any enquiries on race day should be directed to the Race Office. This will be situated at the 10k and half marathon information stand on the Pavilion Terrace– please see map included. Any late entrants can also pick up their race packs from this location.

6. TIMING SYSTEM

The official timing company for this years' race are HS Sports Ltd. Please see the below information regarding the timing system.

Your timing chip is affixed to your race number, do not attempt to remove or fold the chip. Do not pierce the chip with safety pins.

Wear your chipped bib number on your chest on the outer layer of clothing e.g. if a running jacket is worn, wear your number on top of this. Do not obscure your bib number + chip with a bum bag/ running belt.

We encourage runners not to position their arm to start/ stop a personal timing device on or right in front of the bib whilst running over the timing mats themselves as this impedes the signal. Arms can be positioned slightly away from the body, or the devices can be started /stopped when the athlete isn't on the actual mat.

Your bib + timing chip does not need to be collected in after the event. It can be disposed of in general waste or kept as a memento of your race day!

Full results will be available at www.chiptiming.co.uk on the evening of the race.

A text will be sent with your result if you included your mobile telephone number in your application. If you did not include your number a full list of results will be available to all finishers on-line at www.chiptiming.co.uk on the evening of the race.

<p>PLEASE BE AWARE THAT YOUR CHIP IS WILL BE SENT OUT TWO WEEKS PRIOR TO THE RACE START DATE (ON YOUR RACE BIB) AND NEEDS TO BE WORN ON THE DAY. NO CHIP = NO TIME.</p>

23.Sustainability

Overall Aim

The Bournemouth Bay Run is committed to making the event as environmentally friendly as possible. One of the main affecters are single use plastics, at many running events plastic bottles are the most widely used form of hydration for participants. This year we are using boxed water and paper cups at all the water stations and canned water at the finish funnel to eliminate the use of single use plastic bottles and cups. Please help us by bringing your own reusable bottle available to fill up for free at water points on the seafront or in the Prom Café.

Recycling

There will be drop nets / bins provided at points after each water station for the paper cups and all water station marshals are briefed to pick up any dropped cups from around their water station. These nets / bins are picked up and all the contents will be recycled. At the finish there will be recycling bins for cans and litter pickers throughout Pier Approach. Please use the recycling bins provided and pick up any litter.

Single use plastic

As mentioned previously in the overall aim there will be no plastic cups or bottles along the course or at the finish. We have chosen to not have our t-shirts bagged, they come in cardboard boxes. Previously our medals have been singularly bagged, now we have them bagged in 20's. We have also opted for an online goody bag instead of a physical one, this way the participants get offers and adverts online without using unnecessary of plastic and paper. Your goody bag will be emailed out to you so keep your eyes peeled in your inbox before during and after the event!

Sustainable transport

Please try where possible to walk or cycle to the event, why not car share or get a bus to the event? There is a luggage marquee provided for so you can safely store your belongings.

24.

****Please make yourself familiar with the routes and start areas as illustrated in the maps included with this pack.**

Finally, may we take this opportunity to wish all athletes luck for their races. Furthermore, thank you to everyone who will be giving up their time on the day to make this year's event the most successful Bay Run ever!
